EXPERIENCE

3 Months
PYTHON DJANGO INTERN | JUNE 2024 – PRESENT | European IT Institute, Mirpur 10 BANGLADESH

• Developed web applications using Python Django, focusing on building and managing backend functionality.

• Applied Object-Oriented Programming (OOP) principles to design scalable and maintainable code.

• Implemented database design and management using Django's ORM to interact with relational databases like PostgreSQL.

• Utilized Python fundamentals to write efficient and clean code, ensuring robust application performance.

3 Months
WEB DEVELOPMENT AND DESIGN LEVEL-3 TRAINEE
SEP 2024 – PRESENT | European IT Institute, Mirpur 10 BANGLADESH

• Completed an advanced course in Web Development and Design, focusing on responsive design principles, frontend technologies (HTML, CSS, JavaScript), and user experience (UX) design.

• Gained practical experience in designing and developing responsive websites and web applications.

• Developed skills in using tools like VS Code, WordPress, and Bootstrap for creating and managing web content.

• Engaged in projects involving both frontend and backend development, integrating design elements with functional code.
